Spreading the Eco word....

The Doug the Digger Team believes New Zealand is a great place to grow up. Our clean green image is known world wide and we need to all pull our sleeves up to help keep it that way.

We adults find it hard sometimes to change our ways or to remember to. While we learn new ways of becoming eco friendly we have to remember that its our children who are following in our footsteps. We need to be great role models for our children so that when they grow up, being eco friendly isn't a chore its automatic.

Here's some great tips we thought we'd share with you. If you have any more tips or would like to share what you do to be eco friendly, we'd love to hear from you!!

◇ If you're cooking, cook a few things at a time, fill the oven up. Make use of that heat and energy. Also, try not to open the oven door too often, it lets half the heat out!

◇ Walking is great exercise and we can never have enough! Why not take your kids for a walk to the dairy etc instead of jumping in the car? They'll love the quality time with you discovering their neighbourhood.

◇ Turn off the lights your not using, and when a bulb needs replacing why not swap to an eco bulb? They use up to 80% less power than a regular bulb which saves you \$\$\$ Now that's got to be good news!

◇ Stop that drip! Dripping taps and unnecessarily running water is such a waste! Tighten those washers, turn off the tap when brushing your teeth, shower rather than bath...

It may not seem like a few changes to your life could help the environment much...But imagine if EVERYONE made these changes!!

Waihi Goldmine

Check out these machines!! Now that's what we call **BIG!!**

These pics were taken at the Waihi Goldmine when Mr. Mac went to visit.

I guess big work really does need big ma-

Kerri-Ann has been undergoing some transformations these last few months, and finally she's almost finished. She is now equipped with sliding automatic sides to increase her floor space inside, a flat screen LCD speakers charts and pictures everywhere. It really will be an experience upgrade. If you're interested in seeing the new and improved Kerri-Ann then make sure you book now to have Mr. Mac and friends come to see you! Get up in the front seat of Kerri-Ann, have a go on Little Cutie, take a look in the classroom and have heaps of fun learning about the industry and taking in the great messages Mr. Mac has to share.

Auckland Regional Excavator Operator Competition...

Franklin A&P Show

"Little Cuttie" was there for children of all ages to show off their skills and concentration.

Showing their great skills in balance, smooth operation and judging distance.

Supporting his industry...

Alistair McIntyre with Doug the Digger, dedicates his life to supporting the industry he loves with the children of the future. He enthusiastically promotes reading, writing, "sticking with it" and staying in school. His many positive messages encourage children to give it their best while showing them what it takes to succeed in the industry around machinery and trucks.

Goughs CAT

have you ever seen...

such a FAT eel??
